

User Interface / User Experience

Home Page

The screenshot shows the Nox Home Page. At the top, there is a dark blue header with the word "Nox" on the left and a hamburger menu icon on the right. Below the header, the main content area is light gray. In the center, the word "Nox" is displayed in a large, bold, black font. Below the "Nox" text, there is a white input field containing the number "385795". Below the input field is a dark blue button with the text "Enter".

Dropdown includes:

- Home
- Professor Login
- Feedback
- GitHub

Enter unique code to join the session created by the professor

Mobile friendly for students!

Student Interface

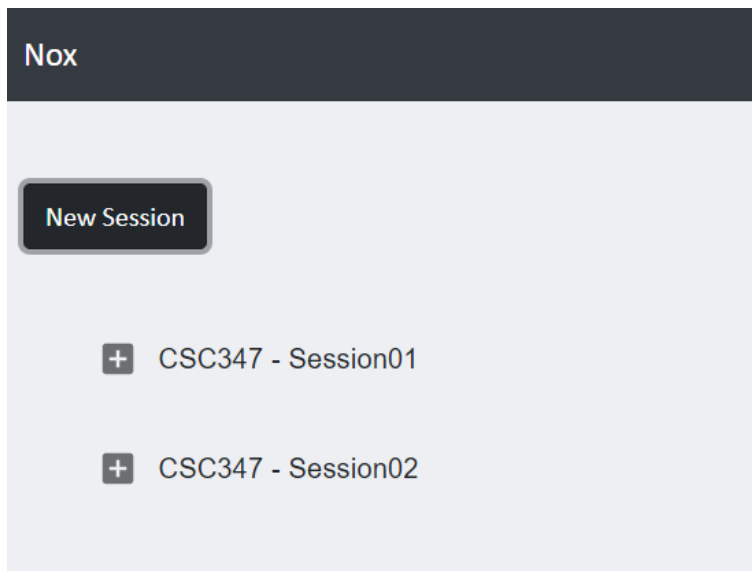

The interface is titled "Nox" in a dark header bar. Below the header, there are three large yellow emoji icons representing different levels of understanding: a sad face labeled "Confused", a neutral face labeled "Okay", and a happy face labeled "Good". Below these, there is a section titled "Ask a Question" with a text input field containing three sample questions: "Can you please explain slide 17 again?", "Can you please slow down? I am having a hard time to keeping up.", and "How do you get the Y-intercept in the equation $y=mx+b$?". At the bottom, there is a text input field labeled "Type your message here..." and a green "Send" button.

Simple and appealing design – easy for students to use without causing much distraction in class

Rate how you are currently feeling about the material being taught

Send private anonymous messages to the professor

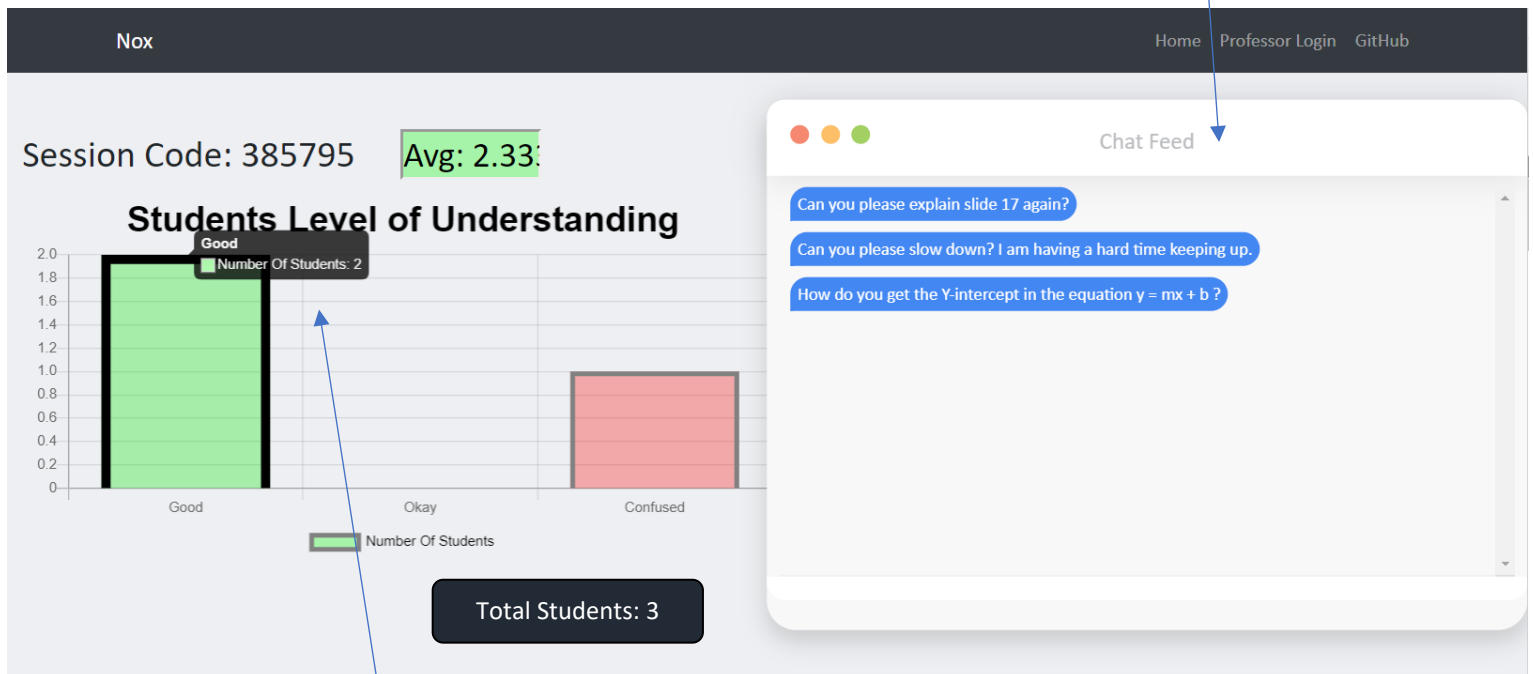

Teacher Interface

View details of a previous session or create a new session

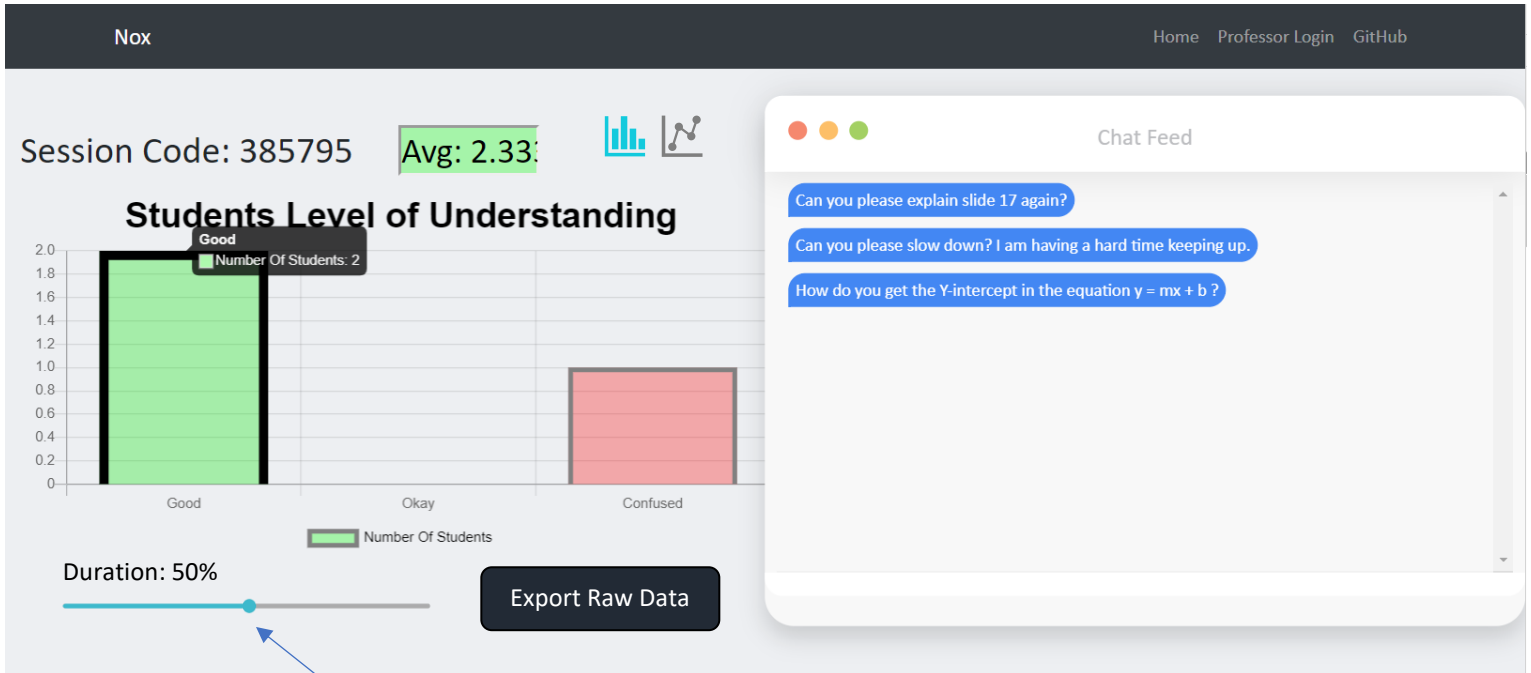

Receive chat from all students in the same feed

New Session

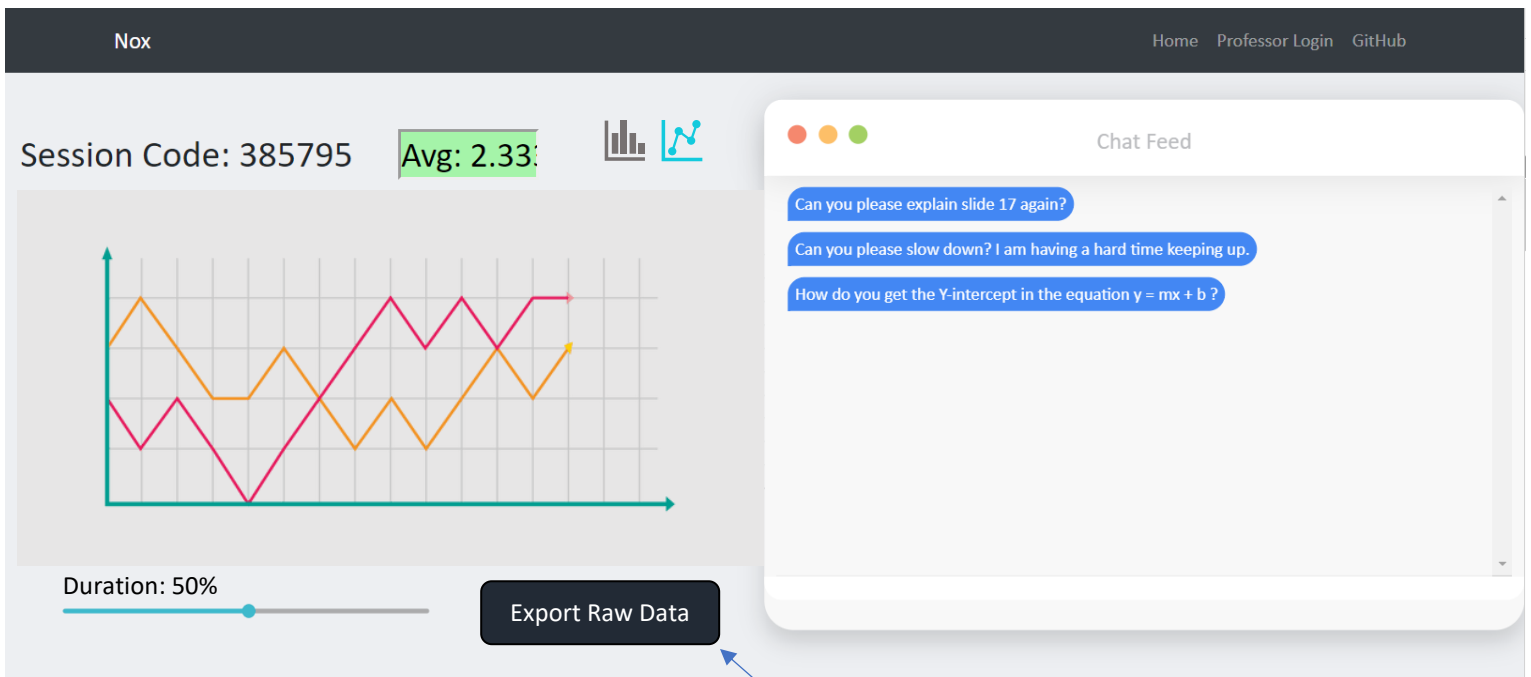

Graph how the students are feeling in real-time

Existing Session (Analytics)

Play through the data like a timelapse, or scrub through it manually

Alternate View

Generates raw session data into JSON format
